## PROJECTS

Flower Image Classification | Python, TensorFlow

May 2024

- Developed using Python and TensorFlow, the goal of the project is to develop a CNN model to categorize images of flowers into different species or classes based on their visual features.

Portfolio | HTML, CSS, JavaScript

Aug 2023

- With HTML and CSS and a touch of JavaScript, I crafted my very own portfolio.

## INTERNSHIP

CodAlpha

Web Developer

Sep 2023 – Oct 2023

Delhi, India

- During my internship at CodAlpha, I served as a Web Developer, where I actively engaged in leveraging technologies such as HTML, CSS, and JavaScript to contribute to various web development projects. I played a key role in crafting the user interface and user experience by utilizing HTML for structuring content, CSS for styling, and JavaScript for dynamic and interactive elements.

CodSoft

Web Developer

Aug 2023 – Sep 2023

Delhi, India

- During my web development internship at CodSoft, I honed my skills in languages such as HTML, CSS, and JavaScript. I actively contributed to the development of web applications, gaining hands-on experience in crafting responsive and visually appealing user interfaces.

## TECHNICAL SKILLS

Languages: Core Java, HTML, CSS, JavaScript, SQL, JDBC

## CERTIFICATIONS

- Digital Marketing - Google
- Google Analytics
